PROFESSIONAL EXPERIENCE

EY-Parthenon

Strategy Intern

Manila, Philippines

Jun - Aug 2026

- Designed the end-to-end onboarding and identity verification user flow for a combined digital app following a \$280B digital wallet platform's acquisition of a bank, migrating 12M+ users onto a single user journey and reducing onboarding funnel drop-off by 23%
- Conducted competitive analysis of 6 digital banks across product suite, distribution, and lending economics to define product requirements, then led evaluation of 15+ providers across 8 build-vs-buy decisions for core banking, lending, and wallet systems
- Accelerated the platform consolidation roadmap by 4 months, allowing for a September go-to-market launch ahead of the Q4 target, and mapped 13 wallet and bank products into a cross-sell strategy projected to lift penetration 9% and cut CAC 15%

New York Startup Week

Co-Founder

New York, NY

May 2026 – Present

- Leading a 12-person team launching a decentralized event series connecting NYC startups, VCs, founders, and universities citywide
- Designed a shared brand and platform model, letting organizers to host 250+ independent panels, hackathons, and founder events
- Secured commitments from 40+ startups and VCs, raising \$350K+ in partnerships and sponsorships toward a \$1M fundraising goal

Be1Space | Productivity Space Finder

Product Manager

New York, NY

Jan – May 2026

- Led product strategy for a multi-campus study space finder, from scoping all through sprint planning, shipping an MVP in 8 weeks
- Conducted 20+ student interviews across NYU, Columbia, and Fordham, translating pain points into a prioritized feature roadmap
- Launched university-specific filters based on interview findings, increasing monthly active usage (MAU) by 35% over 5 months

Jollibee Group

Product and Systems Optimization Intern

Manila, Philippines

Jun – Aug 2025

- Developed an internal demand forecasting tool to replace manual inventory tracking, improving forecast accuracy (MAPE) by 28%
- Automated supplier orders from demand forecasts, reducing dinner stockouts by 19% and weekly reconciliation by 40% (~4 hrs)
- Owned pricing and promotion strategy for 24 high-margin SKUs, lifting gross margin by 6.2% and presenting results to leadership

EZETracking

Product Developer

New York, NY

May – Aug 2025

- Launched a job-tracking web app with core create, organize, track, and search workflows, reaching ~100 users in the first 4 months
- Conducted 50+ user interviews and analyzed 10+ weekly feedback responses, utilizing results to build and prioritize 4 new features
- Redesigned onboarding flow, cutting time-to-first-tracked-application by 42% and increased user account creation from 17% to 54%

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

NYU Product Management Club

Director of Outreach, prev. Director of Mentorship

New York, NY

Dec 2025 – Present

- Secured 35+ speakers for weekly panels, growing attendance by 103% across 14 events, boosting overall club membership by 32%
- Designed and built a mentorship syllabus from scratch, teaching 2 weekly workshops on core product management skills to mentees
- Recruited 18 PMs to serve as mentors and screened ~200 mentee applicants, managing pairings and engagement across the semester

NYU High Speed Research Network - Research Technology Service

Business Analyst

New York, NY

Dec 2025 – Present

- Built a centralized database to consolidate 1,000+ NYU alumni and member records, standardizing fields to improve data accuracy
- Piloted 4 tools to redesign recruitment workflows for 6 research departments, cutting response and screening time from 3 days to 1
- Evaluated ~\$6K in spending and resource data, uncovering and eliminating ~15% in previously untracked and unused expenditures
